3 September 2015

To whom it may concern,

It is my pleasure to write a letter in support for Greg and Dawn Floyd and their charity 'Cowboys 4 Kids' a benevolent advancing health charity that run an Equine Early Intervention program at Beulah Ranch on the Central Coast of NSW.

Greg and Dawn Floyd, who are also passionate and committed foster carers, purchased and developed the property with the goal of helping children and families in need, and have had great success with engaging at-risk young people and their families in the many activities they offer, which range from woodworking to archery. Greg and Dawn dedicate their personal time and finances into the growth of the Ranch and are always looking at new programs that will engage the children they host in order to give them the best experience possible during their stay.

There is a growing need and great benefit of specific programs targeting kids at risk. Any mentoring program that can assist our youth to restore hope, confidence, self-esteem and to harness and develop their skills and talents, assisting them in making better life decisions and reaching their full potential is worthy of support. Allambi are happy to support Greg and Dawn as programs such as theirs won't survive without funding and support from the community.

Allambi are happy to support 'Cowboys 4 kids' and their growing program, and urge other organisations and businesses to also recognise the great work Greg and Dawn are doing at their Ranch. There is potential for growth in what they offer and can only do so with the support of the wider business community.

Sincerely,

Simon Walsh
CEO
